This Front Matter is brought to you for free and open access by the Ateneo Journals at Archium Ateneo. It has been accepted for inclusion in *Journal of Management for Global Sustainability* by an authorized editor of Archium Ateneo.

Launched in June 2013, the *Journal of Management for Global Sustainability* (JMGS) is an internationally peer-reviewed open access scholarly journal on management and global sustainability published semi-annually by the International Association of Jesuit Business Schools (IAJBS) and managed by the John Gokongwei School of Management of the Ateneo de Manila University. Printed copies are regularly distributed to more than 300 IAJBS member institutions and top business schools around the globe while the online version is available to all readers worldwide. JMGS is indexed in Cabells Journalytics, EBSCOHost, and EconBib.

JMGS defines global sustainability as the broad set of interconnected issues that include, but are not limited to, the achievement of environmental preservation, social entrepreneurship, poverty eradication, social justice, desirable production and consumption patterns, species preservation, and spiritually rich lives at this time in our species' history on this planet. It seeks to publish articles on how productive enterprises contribute toward realizing and achieving global sustainability so as to create socially just and spiritually whole ways for all species to go on thriving indefinitely.

Requests for printed copies may be sent to jmgs@ateneo.edu. For more information and to view the online version of JMGS, please visit our website at <https://ajol.ateneo.edu/jmgs>.
